

# Job Posting

Job Title: Maintenance Supervisor  
Shift: Day shift  
Location: New Castle Stainless Plate, LLC; New Castle, IN

## Position Overview:

Responsible for employee assignments and equipment requirements for all plant maintenance work in coordination with production demands. This includes scheduled maintenance as well as unexpected equipment breakdowns. Updating of the maintenance control system daily including entering data from work requests, shift repair logs, PM Sheets, etc. Also responsible for the development and updating of reports used for employee staffing and preventative maintenance requirements. Spare parts administration including the updating of usage, development of reorder levels, and the monitoring of spares inventory to insure the availability of required parts and supplies.

## Essential Requirements:

Strong organization and communication skills, and the ability to direct work force personnel effectively are imperative. Candidates must possess a strong internal drive and the ability to motivate self and others in a rapidly changing, fast-paced environment. Support the environmental, health and safety management system, along with all other job duties assigned. Experience within an industrial maintenance setting preferred.

## Compensation / Benefits Including:

- Full time salaried exempt position
- Compensation relative to experience/skills
- Medical/Dental/Vision/STD/LTD/PTO
- Quarterly Profit Sharing
- 401K with Significant Company Match
