

worldstainless welcomes new member

The world stainless association is delighted to welcome New Castle Stainless Plate LLC from New Castle, IN, USA as a member of the association.

New Castle Stainless Plate (NSCP) is a producer and marketer of discrete stainless steel plate products. NSCP maintains a strong commitment to quality and their most valuable resources, their people and the environment. The safety of their people and how their business affects the environment and community are paramount business imperatives.

Operational and Commercial Excellence are hallmark characteristics of NCSP. They strive to be among the most reliable and service-oriented producers and suppliers of stainless steel plate to their customers.

About worldstainless

worldstainless is a not-for-profit research and development association which was founded in 1996 as the International Stainless Steel Forum. Our vision is to sustain our world's future with stainless steels.
