

June 17, 2026

Dear Colleagues & Friends of NCSP:

All of us at New Castle Stainless Plate are grieving the passing of our colleague, Andy Personett, on June 15, 2026.

Andy was a proud Rose-Hulman Institute of Technology Chemical Engineering graduate and our VP Technical the last 14 years of his 29 years at NCSP. He was our go-to guy on all things metallurgy and was an expert resource for our customers and other partners.

More than a great colleague, however, Andy was a devout family man and involved in his community.

We miss our friend and colleague and honor his memory.

Warmest Regards,

Kevin Keeley
